🎯 CAREER OBJECTIVE

Aspiring Frontend Developer with practical experience in React.js and Tailwind CSS. Eager to contribute to real-world UI projects and grow through collaborative development.

🧠 SKILLS

- Javascript
- HTML5
- Bootstrap
- React.js
- CSS3
- Tailwind CSS
- Git

📁 PROJECTS

FolkNest [🔗](#)

- Built a cultural discovery platform with React.js, showcasing country-wise info like food, music, and sports.
- Integrated REST Countries API for dynamic flag cards and cultural details.
- Developed blog functionality with CRUD features using local storage.
- Added interactive quizzes, cultural maps, and responsive design using Tailwind CSS.

StayShelter [🔗](#)

- Developed a hotel booking interface inspired by Airbnb using React.js and Tailwind CSS.
- Implemented listing views, filters, and responsive layout for seamless UX.
- Focused on layout precision, clean styling, and modular component design.
